ABOUT ME

As a distinguished graduate from a Vocational High School with top honors in Computer Network Engineering, I am currently furthering my education in Information Systems at Bina Sarana Informatika University. My passion for technology extends beyond the classroom as I actively engage in learning about the latest advancements in web and mobile technology and its functionalities. Driven by a fervent enthusiasm for problem-solving, I am eager to dive into the tech industry and contribute to the creation of applications that have a meaningful impact on people's lives.
